

Warm greetings from the International Relations Office of the **University of Strasbourg, France!**

We are pleased to invite your students to our **two-week Summer School from June 17th to 28th, 2024**. This Summer School explores the **European Identity: Past, Present and Future**.

Strasbourg is located in the very heart of Europe and is home to several major European Institutions. Numerous initiatives for European youth also take place in our city (European Youth Event, European Movement France, Young Europeans France, etc.). As a result, Strasbourg embodies fundamental European values, and we are thrilled to share them with your students.

This Summer School brings together **academic courses** scheduled in the morning and **cultural activities** in the afternoon, with a focus on Europe and a hint of "French touch". The program is open to both undergraduate and graduate students, with all courses taught in English.

A certificate of attendance will be issued to participants.

Please find the Summer School previsionnal program [here](#).
